

# Bollard Light

**The LED Bollard Light provides a robust and stylish way to illuminate the boundaries of your driveway or garden.**

With multiple options for fitting and an attractive aluminium design, this versatile product can be installed into driveways, walkways, patio areas and even in the garden, instantly improving the aesthetics and general safety of your chosen area. With its 75cm height and impressive durable design, the Bollard Light is an economic and sophisticated way to bring some light and life to your outdoor living space.

The Bollard Light is a strong and durable option for providing outdoor LED light, as well as clear indication of the boundaries of your patio or driveway. The Bollard Light can be fitted in a variety of ways including into wet concrete or cement, as well as the option to be fitted into soft ground using the included spike attachment or into a previously finished application using the included masonry fixing kit.
